

*Analytical instrumentation in our laboratories:*

Waters HPLC with Photo Diode Array Detector  
Gas Chromatograph  
Differential Scanning Calorimeter (DSC)  
UV Spectrophotometer  
IR Spectrophotometer  
Texture Analyzer  
Sonic sifter  
Tablet micrometers  
Tablet hardness testers  
Tap density tester  
Powder flow testing apparatus  
Moisture Balance  
Karl Fisher Titrator  
Disintegration baths  
Dissolution Apparatus  
Surface Analyzer  
Stereo Microscope with camera  
Automated Tablet Characterization Instrument  
Colorimeter  
TOC (Total organic carbon) Instrumentation  
Stability Chambers (Various environmental conditions)
